

BURLINGTON STEEL COMPANY, LIMITED

ANNUAL REPORT OF THE BOARD OF DIRECTORS

TO THE SHAREHOLDERS:

The Directors present herewith a statement of the affairs and financial position of the Company for the fiscal year ended December 31, 1943.

Full capacity operation of your rolling mill was maintained throughout the year, but operations were curtailed in some secondary departments producing materials non-essential to the war effort. Early in the year, through an agreement with the Department of Munitions and Supply, raw materials were made available for products urgently needed for the shipbuilding, motor transport, and other war programmes.

Tonnage volume of sales, as well as dollar value, declined 8% and 5% respectively, from the previous year.

After provision of \$91,000 for Income Taxes, net profits amounted to \$123,637, equal to 88 cents per share, as against \$1.14 shown in the year 1942.

Dividends totalling \$84,000, at the regular rate of 60 cents per share, were paid from the year's earnings. Net current assets were increased by \$86,220, and now amount to \$1,219,709, equal to \$8.71 per share.

The Company's investments consist of \$650,000 Bonds of the Dominion of Canada, and \$75,000 Bonds of The Hydro-Electric Power Commission of Ontario.

Your plant and equipment have been maintained in a high state of repair. Through the creation of reserves to provide against possible post-war declines, raw and finished material inventories have been carried into the new year at pre-war valuations.

Reduced war demands, combined with continuing Government restrictions on construction and the manufacture of consumer goods, made it necessary to somewhat curtail mill operations at the beginning of 1944. At the moment the future outlook is obscure, but with raw material now in plentiful supply, and with the expected lifting of the above Government restrictions, we are hopeful that your manufacturing facilities may soon be more fully employed.

We feel, however, the shareholders should be advised that the continued rise in labor costs, accompanied by curtailed operations and ceiling prices, has reduced the margin of profit in the steel industry. The present indications are that your Company's earnings in the current year will probably be lower than those of 1943.

The Directors of your Company wish to express appreciation to the staff for their loyal services during the past year.

Respectfully submitted on behalf of the Directors.

H. J. STAMBAUGH,
President.

Hamilton, February 19, 1944.
